mine work memo 8 13 15 3 30 pm.docx

Martin,

Per my voice mail Jim W asked me to share this memo with you. It is draft and has not yet been reviewed by Mathy, but they hope to have it out final by COB today. The work at GKM and some work at other sites in region 8 fall under one or more of the exclusions in the memo. Monica Sheets called me a little while ago expressing concern that state people in Durango are hearing from you that we and they need to stop all reclamation/stabilization work at GKM per Gina's email. Jim W asked that you email him a time to talk as soon as your schedule allows.
Bottom Line: All necessary work at GKM can continue under the exclusions to the directive.

Bill

I believe the attached version (which has time/date on it) captures all of the comments I've received thus far
